CLIMATE HOUSING QUALITY

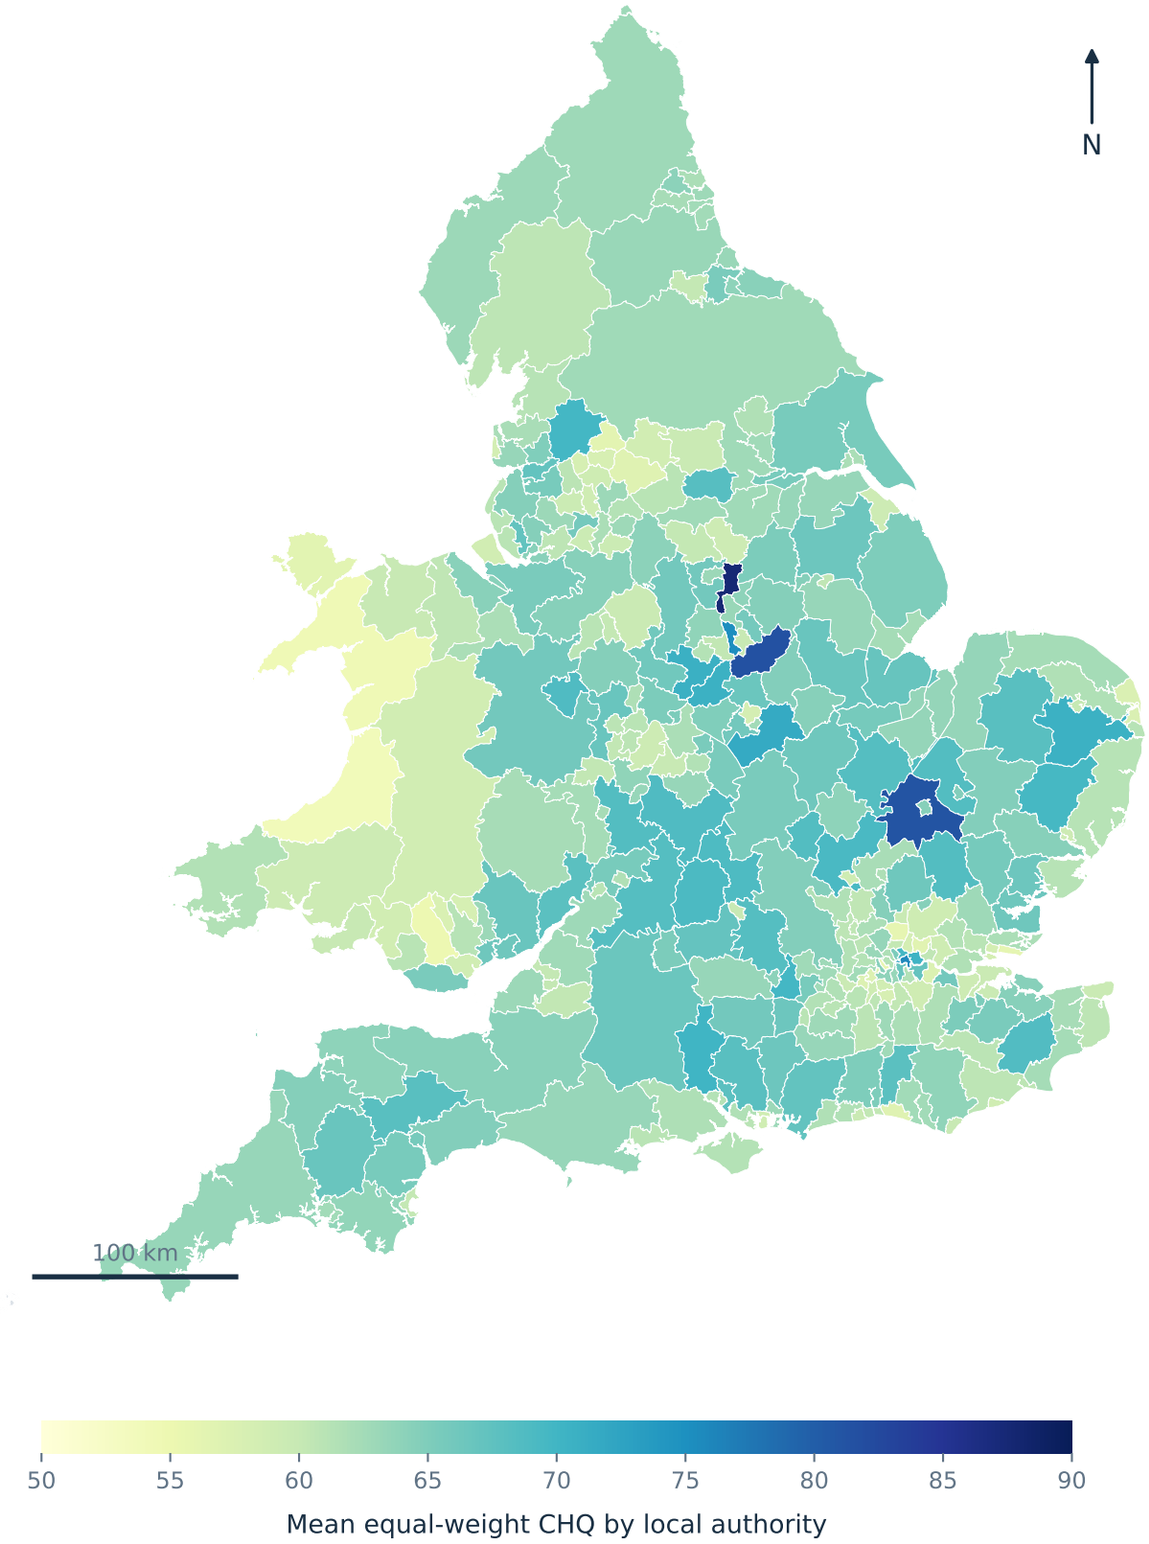

How does equal-weight CHQ vary across places?

England & Wales | 2012–2024 linked sales | 41 current-state variables | 0–100 scale

318
local authorities

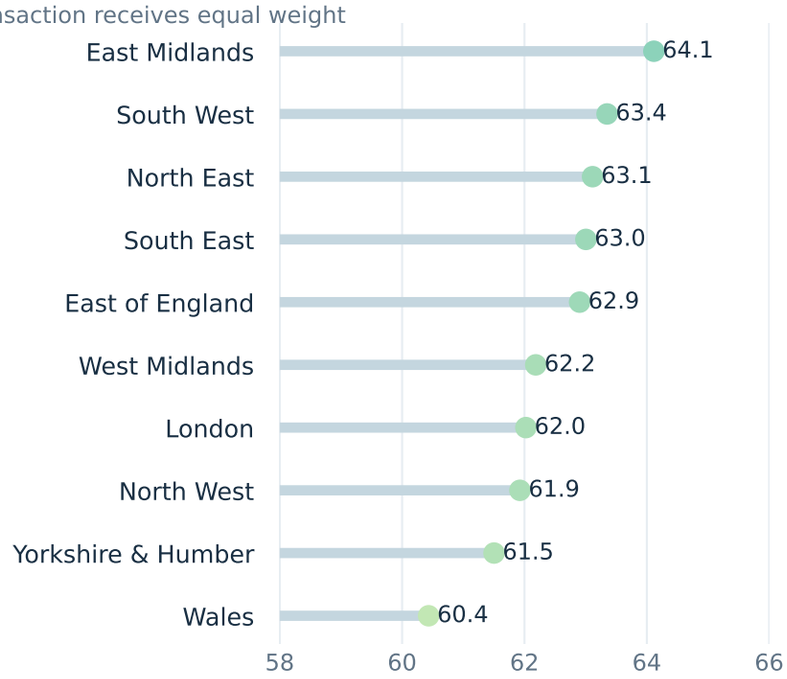

4.37 million
mapped transaction observations

62.52 / 100
transaction-weighted mean CHQ

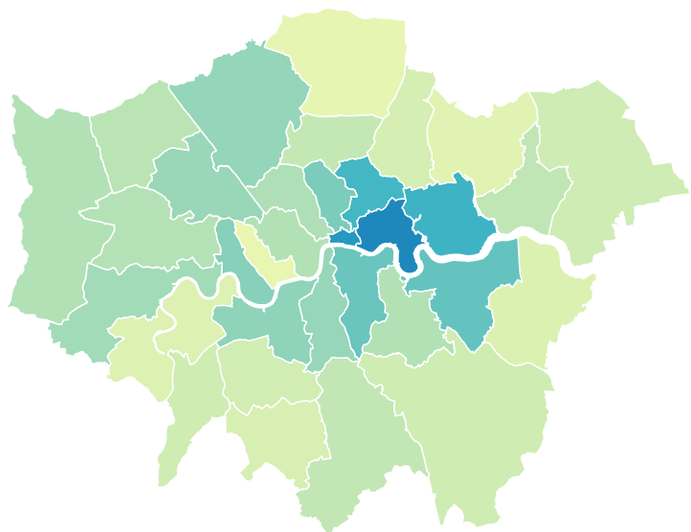

Regional means

Each transaction receives equal weight

London detail

Same colour scale as the main map

Grey: fewer than 100 transactions (Isles of Scilly: n = 2). 14 records lack a mapped authority.

Sales-sample averages; unadjusted for sale year, dwelling mix or missing-variable mix. This is not a housing-stock census.

Boundaries: ONS Local Authority Districts, December 2024 (BGC). Contains public sector information under OGL v3.
